

2008 02 08

NCADTM Corporation, since 1989, serves the tri-state community with computer engineering focused on:

- **Computer Systems and Network Engineering**
- **Knowledge Engineering with GIS**
- *optimized use of the **Global Positioning System**.*

Highlights

- 1989 **1st** in 12-state region Business Partner with Environmental Systems Research Institute (**ESRI**).
- 1992 **1st** in region "**wIntel**" OEM System Builder iNtegrating **CAD** n **GIS** with Microsoft networking.
- 1993 **1st** in region dedicated to Windows NT for desktop and network operating systems.
- 1996 **1st** in World to clarify GPS receiver comparisons.
- 1996 **1st** in World private organization providing National Geodetic Survey (NGS) **CORS** service
- 1997 john authored **Dimensions of 3D** <<http://ncad.net/dim3d.htm>>
- 1998 **CORS "Erla"** is declared by NGS most stable CORS in a growing, national network now approaching 700, and is today the only fully-monumented CORS in OH-KY-IN. <<http://www.ngs.noaa.gov/CORS>>.
- 1999 john authored and presented **The Surveyor's GIS** at the Professional Land Surveyors of Ohio <<http://ncad.net/GI/sGIS/plso99.htm>>
- 2000 **Erla** among 11 international GPS Reference Stations reported by NGS Chief Geodesist as SA is zeroed. <<http://www.pnt.gov>>
- 2001 john authored ESRI ArcNews article: **Visualizing Earth from Space Improves Local GIS** <<http://www.esri.com/news/arcnews>> search OKI
- 2002 KY Legislature, facilitated by NCAD, unanimously passes **SB257** protecting KY from uncontrolled merchant power ventures. <<http://www.lrc.state.ky.us/recarch/02rs/SB257.htm>>
- 2003 **NacTax** National Accounting with real-time Computation and reporting of Taxes -- in MS Excel.
- 2003 **1st** CORS source, outside California, of real-time dual-freq GPS corrections broadcast over the N.
- 2004 john presents at KY and OH GIS Conferences: **Geodatabase** and **Survey Spatial Mgmt**
- 2005 john provides ESRI ArcGIS 9 training for **National Geodetic Survey State Geodetic Advisors** serving: Alaska, WA, CA, AZ, CO, FL, KY, OH, et al.
- 2005 introducing **geoPort** featuring the **Cincinnati Arch** and destinations around **Cincinnati, USA!**
- 2006 serving Kentucky: <http://gis.ky.gov/kygb>
- 2007 global cartography / annotation production.
- **2008 Cisco Certified Design / Implementation of Smart Business Communications.**

NCAD provides **complete service** for business and government organizations, enabled by integration of advanced communications with server, spatial, and mobile technologies. We guide you on the most **cost-efficient** path to manageable, scalable Information Systems on a **Cisco Secure** Foundation with **Unified Communications**.

NCAD delivers the most integrated Intel-based, **Quad Core** servers and workstations and Centrino notebooks supporting Microsoft **Windows Vista**, **XPro64**, and **Server 2008**. We provide Cisco secure iNter-net-working of integrated services, providing assured foundation for complex applications like MS SQL Server 2005 and ESRI **ArcGIS Server**.

Having mastered Microsoft Dynamics accounting, **NCAD** constructed **NacTax** to provide simple, complete, real-time **corporate accounting, reporting, and tax computation** based on Microsoft Excel.

NCAD provides (new and repair of) the industry's best technology including **hp** output (DesignJet), and mobile technologies: mobile workstations, tablet PCs, palm PCs, and advanced cell phones.

Geospatial Integrative Service is facilitated by **NCAD** with **Environmental Systems Research Institute**. Benefit from our knowledge, experience, and service to the tri-state OH-KY-IN, where nearly every public agency is standardized on ESRI GIS. ArcGIS is the foundation for a career enhanced by GIS capability. **NCAD** provides ESRI software, consulting and learning opportunities for GIS **Builders** and **Users**.
